	Non-video	Radar	Hikvision Radar	DS-PR
		Security Inspection	Baggage Scanner	NP-SCXX
			Hand-held Metal Detector	NP-SHXX
			Walk-through Metal Detector	NP-SMGXX
credit	other			

The service option (repair or credit) for each requested unit will already be mentioned on the RMA form (PDF format) that will be sent to distributor. This enables the distributor to proactively provide the right service to their customers. In other words, if the unit will be credited, the distributor can already exchange the product to their customer from their own stock. In case of credit product categories, the credit amount will be based on the distributor's latest purchase price.

Note: the same form will be used also for repairs of Out Of Warranty units. The distributor will always first receive a price quotation for the repair cost for approval.

EXAMPLE

Return Material Authorization Form

Return Material Authorization (RMA) procedure:
RMA number: RMA#RR_EU180305002. RMA#RR_EU180305002. RMA#RR_EU180305002. RMA#RR_EU180305002.
For out of warranty products, Hikvision will provide an estimated repair cost which needs to be approved by you firstly before the repair will be fulfilled.

2. Shipping procedure

The distributor needs to fulfill the following checks before shipping the goods:

- Do the goods match exactly with the RMA request form;
- Are the products tested as defective;
- Are the goods not damaged, caused by external influence;
- Are the returned goods properly packed;
- The RMA document must be in the box;
- The RMA document is valid for 14 calendar days;
- In case the RMA does not comply with the RMA procedure as mentioned in this document, Hikvision reserves their right to return the product(s) on customers account.
- The RMA label must be completely filled in and labeled on each box / pallet.

HIKVISION | **EXAMPLE**

RMA number: RR_____
(Please, fill in)

**RMA
Label**

Box / pallet: 1 of 2
(Please, fill in)

Hikvision Europe
Dijksterhuis 5
2132 PK Hoofddorp
The Netherlands

3. Communication

All communication regarding RMA can be addressed to: rma.eu@hikvision.com in English.

All handled units will be reported on the RMA report with a detailed description of the performed service. This report will be sent to the distributor.

4. DOA procedure

In case a product fails directly after connecting / using it for the first time, this unit can be returned as a DOA (Dead on Arrival). These cases need to be separately requested by e-mail sent to the RMA department.

The DOA procedure is applicable for the products that are not already in the credit category.

It means that products that are normally being repaired can be sent as DOA, which results in fact that they will be exchanged for a new unit. However, there are some specific rules for the DOA procedure:

- Delivery date (date of invoice by Hikvision) of the unit cannot be older than 3 month EU delivery) or 4 months (China delivery);
- Products have to be new and complete in original box;
- The product needs to be defective;
- In case, after inspection, one of the above conditions is not met, the unit will be either repaired or returned without return up to the customer's choice.

The DOA request from the distributor (by e-mail) will be followed up by the DOA / RMA forms, which have to be attached to the returned DOA.

The returned DOA product(s) need to be labeled with the following sign

5. Warranty

Refer to latest <Regulation of Overseas Extended Warranty Policy For Hikvision Europe> documents.
